

2022/07/15

- After meeting with Anukruthi, I spent approximately an hour and a half introducing her to the simulation bench, how to use it as well as the data logging pipeline, and also made sure to produce a detailed list of instructions for her to be able to collect datasets herself.
- As she is now using the simulation bench to make some datasets, I cannot work on the simulation bench. As such, I will begin working on making a revised presentation for the simulation bench until my meeting with Amal at 5 pm.
